THIRD TERM 2024/25

JULY 11TH 2024

APPRECIATION

We give all the glory to Him alone that deserves it for a successful term ending despite all the ups and downs, He helped us through. Also all our stakeholders are greatly appreciated for your cooperation, resilience, and promptness towards achieving success in this just concluded term.

However, we want to sincerely apologize to everyone we might have offended in the cause of discharging duties. We are all working for the progress of our children as this is our ultimate priority.

Below are the vital issues we want to look into comes next term by God grace.

SUMMERSCHOOL/STEM

Our summer school starts on 29th July 2024 and will end 19th August 2024. This is a 4 weeks intense summer class with lots of activities to engage the pupils with. There shall be an introduction of the STEM class where series of experiment as well as practicals will be introduced. The summer school is #5,000 (five thousand naira only) per child.

SCHOOL FEE

On the aspect of school fee, parents should endeavor to pay 95% on or before 9th of September, 2024 so as to enjoy all round academic impact

HEALTH

Any child who isn't feeling well should be well taking care off before resuming back to school. We do not administer any drugs to pupils in school for any reason.

RESUMPTION & CLOSING TIME

Assembly time from next session is 7:45am-8:00am. Pupils are to be in school before the assembly begins. Dropping of children earlier and picking them late as against the school agreed time will no longer be tolerated anymore? Please let's adjust; hence, it will attract huge fine. Children should not be dropped in school without an adult supervision.

SCHOOL DRESS CODE

School dress code is school uniform with black school shoe and black socks. Any child with black sneaker or canvas with the Monday and Tuesday uniform will be sent back home as from next session. Every pupil must be on their school tie as this is the proper school dress code. We do not permit 2 pairs of earring on our female children. Also, the schools frown at beads application on their hair purposely for the safety of our children.

SCHOOL BUS SERVICE

We wish to announce to our dear parent that the school is making plans for a school bus service for next session. We are working to make easy access to school for our pupils and parent. The fee will be included into the school bill. Thanks

NOTICES

- Please ensure your children come to school each day with a healthy meal.

Third Term Vacation:
July 19th 2024

First Term Resumption:
September 2nd 2024

WHAT WE ARE LEARNING

Literacy

It is important for children to discover phonemic awareness-the ability to hear and identify different words and sounds, and also start reading and writing.

Understanding the world

This involves children making sense of things by observing and exploring everything from the places they spend time to the technology and alter things they use.

Personal, social and emotional development

This area helps to shape children's social skills and develop respect and an understanding of their different feelings.

Physical development

We all know that young children all needs to be active, but they also need to understand that continued physical activity as well as healthy food choices are important, and why.

Expressive art and design

We offer unique activities like drawing, painting instruments or technology that gives our children the opportunity to express them and learn new things.

Communication and language development

At Bright Explorers, we provide an environment for young children to express themselves and speak and listen in a range of situations allows them to develop their language and communication skills.

Puzzles

At Bright Explores, from early years to middle age, we love to play puzzles. Puzzles are an important educational learning tool for toddlers and children as they provide many skills and mental learning benefit and opportunities. Our puzzles come in a whole range of themes and topics such as alphabet letters, shapes, vegetables, numbers, pets, transport and colours. All children learn differently and puzzle maybe their medium for grasping and understanding of certain themes such as alphabet letters.

Mathematics

Children need to be guided in developing skills with numbers and calculations, as well as being able to describe shapes, spaces and measures.

Understanding the British curriculum

Bright explores Primary school

Generally speaking, the British curriculum is an international system of education that originated in Britain.

The international school curriculum has attained a worldwide reputation for quality and is considered the most popular curriculum in the world.

A bright explorer as a Nigerian British school with its headquarters in London, United Kingdom adopts the British curriculum and balances it with the Nigerian curriculum.

The British curriculum is divided into five key stages that children are taken through during their school life. Here detailed breakdown of each of them.

| Key Stage | Distribution | School Classes |
|------------------|---------------------|-----------------------|
| Key Stage 1 | Ages 5-7 | Years 1 & 2 |
| Key Stage 2 | Ages 7-11 | Years 3- 6 |
| Key Stage 3 | Ages 11-14 | Years 7-9 |
| Key Stage 4 | Ages 14-16 | years 10 & 11 |
| Key stage 5 | ages 16-18 | |

Key stage 1

This is regarded as the exploration stage. Children are encouraged to explore, play and discover more things about their immediate environment.

This is the foundational stage of the Childs learning journey.

Key stage 2

This is the stage where children improve on their communication and application of the skills they have acquired in the previous stage.

What we are learning

| Age | Key stage 1 5-7 | Key stage 2 7-11 |
|-----------------------------|--------------------|---------------------|
| Year group | 1-2 | 3-6 |
